DETAILED ACTION

Remarks

In response to applicant's Amendment, dated April 22, 2002, the examiner acknowledges the cancellation of claims 1, 2, 8, 10 and 12. Claims 3-7, 9, 11, 13 and 14 are pending.

During a personal interview (see Interview Summary, dated January 22, 2002), the applicant made the argument that:

The present invention as recited in claim 11 is distinguishable from Martin because the mixture of scented air occurs prior to delivery of the air to the user's nose. In contrast, Martin teaches that each of the individual capillary tubes delivers one fragrance to the user's nose. Thus, any mixing that might go on would be directly below the user's nose rather than in a mixer which is separated from the user's nose. Thus, by employing the mixer in the case, a single conduit can be employed to deliver scented air to the user's nose.

The examiner has considered the applicant's arguments and withdraws the rejection set forth in the Office Action mailed November 23, 2001.

Allowable Subject Matter

1. Claims 3-7, 9, 11, 13 and 14 are allowed.
